

7 REASONS TO CHOOSE PROJOBA INTERNATIONAL

While starting your own business should not be taken lightly, it does not have to be a difficult decision.

Following are 7 compelling reasons to join ProJoba International. Learn how ProJoba International gives you everything you need to succeed in business, and how your federal government gives you the financial incentive you need to get started today!

1. CATEGORY CREATOR!

Historically, the greatest opportunities in network marketing have been with companies that have defined a new product category. In other words, they introduce the world to an existing product in a new and unique way. The important thing is that these companies were "first to market" in the networking arena. Many people who got involved with these companies created spectacular wealth.

Your opportunity with ProJoba International is greater than with any other company in the history of this industry! Why? Because ProJoba hasn't just defined a product category... **WE HAVE CREATED IT!**

The exciting science of Neo-Nutrition™ provides your body with nutrition from nature before it is grown. Neo-Nutrition comes from the source of all plant life: Pure Flower Pollen. Only Flower Pollen can feed your body the complete, unadulterated nutrition it craves. By delivering hundreds of bio-available Neo-Nutrients to your body, ProJoba's Neo-Nutritional products are the only primary nutrition source in the world today!

And because ProJoba "owns" this product category, there can be no "copy-cats." You won't find our products in Costco or Walmart, and there cannot be late-to-market, copy-cat companies trying to ride the wave of your success!

2. LEAD PRODUCT THAT DELIVERS IMMEDIATE IMPACT!

ProJoba has an exciting Neo-Nutritional drink named Pollen Burst™. This delicious, all-natural, energy, anti-aging, weight-loss and anti-inflammatory drink (yes, all of that in ONE drink) is totally unique. "Burst" tastes great and most people feel an incredible impact from the very first use. The product is individually packaged, making it easy to travel with, easy to sample and inexpensive to share with prospects!

3. MARKET POSITION AND TIMING!

With Baby Boomers reaching retirement age at unprecedented rates, ProJoba International puts you in the right market at the perfect time! Millions of aging consumers want (and need) the life-enhancing benefits of Neo-Nutrition.

Although Pollen Burst is the company's lead product, ProJoba has a comprehensive line of Neo-Nutritional products designed to help with energy, weight loss, anti-aging, and overall health and well being for an active society! Because ProJoba is not a "one hit wonder" company, you can be assured of a strong and growing demand for your business.

4. FAIR AND EXCITING COMPENSATION!

With one of the hottest, most legitimate, and fair compensation plans in the industry, you can't go wrong with ProJoba. With one of the highest payouts in the industry today, the ProJoba PowerBurst Bonus provides exciting income early on, coupled with a solid, long-term residual plan for "walk-away" income! No other company in the industry today has the "one-two" income punch of ProJoba International!

5. ENTREPRENEURIAL FOCUS!

You will love working with ProJoba International! ProJoba understands and respects your efforts as a Distributor, and we have designed systems to help you win! With unique and exclusive products that can't be duplicated, superior online tools (including a FREE replicating website), unparalleled distributor and customer support, low start-up cost, and a corporate leadership team that has its roots in the field, you will never have a better opportunity to succeed with your own business!

6. TAX BENEFITS!

Did you know that the government wants you to succeed with your home-based business? It's true! And to help you succeed, they provide you with generous tax savings just for owning and operating a small business from home. In fact, if you take advantage of all the tax benefits the government gives you as a small business owner, it is virtually impossible for your ProJoba business to fail! Thanks to ProJoba's small start-up and ongoing operational costs, the government all but guarantees the success of those who take advantage of this powerful income tool called "tax savings." In short, if you don't own your own business, you're paying too much in taxes!

7. OPPORTUNITY FOR EVERYONE!

Starting your own home-based business has never been easier . . . or risk free! With a start-up cost of as little as \$29 and a monthly personal sales volume requirement as low as \$50 to earn commissions, EVERYONE can enjoy the income and tax-saving benefits of a ProJoba International home-based business!
